I am a web developer who is passionate about technology and delivering the best product I can. Although I've graduated from college, I haven't stopped learning and enjoy constantly improving my skills.

As a web developer I use JavaScript in every aspect of my work. Using React as the front end framework. The runtime environment for the web apps on my GitHub is node.JS which runs on JavaScript. For non-react based web apps, I use JavaScript along with jQuery to manipulate the DOM.

WORK EXPERIENCE

Web Development Teaching Assistant, Trilogy Education, Overland Park, April 2019 – Present

- TA for the Full Stack Web Development Bootcamp at The University Of Kansas, Edwards Campus.
- Lead classroom discussions, guide inquiry, emphasize the meta-skills and core concepts of software engineering.
- Support students in their projects and challenges, and provide feedback to students.

Web Developer, Lumos Web Design, Overland Park, August 2018 – Present

- Meet with clients to discuss website needs and create wireframe for the project.
- Use a variety of programming languages in order to create user-friendly web pages.
- Develop SEO optimized sites using tools like Google Spotlight to verify SEO.
- Work in multidisciplinary team with other professionals such as graphic designers.

Bilingual Retail Sales Associate, T-Mobile USA Inc, Olathe, KS, October 2013 – May 2014

- Achieved sales quotas in a fast-paced environment.
- Provided technical support for iOS, Android, and Windows devices to 10-15 customers per day.
- Awarded "Top Revenue Growth Associate in the Western Plains District" for 4th Quarter 2013.

PROJECT EXPERIENCE

KC Tech Jobs — Job Board for Technical Positions in the Kansas City area – <https://kctechjobs.netlify.com>

- Created a web app that shows tech jobs in your area. Uses Indeed's Job Search API to fetch jobs based on job title and zip.
- Uses React as the front end framework, node as the runtime environment, and firebase as the backend.
- Users can create accounts to store bio and save jobs.
